INTRODUCTION

The Association of Northern California Oncologists (ANCO) was organized in 1990 to be an advocate for, educate, and inform the practicing hematologist and oncologist. As of June 30th, 2018, ANCO represents 536 hematologists and oncologists throughout northern California, up from 504 in 2017. Of these, 148 are community (147) or government (1) based oncologists, 8 are retired from full-time medical practice, 264 are affiliated with one of the three regional academic cancer centers—Stanford University (94), UC Davis (53), and UC San Francisco (117)—and 116 practice at The Permanente Medical Group (at 20 locations). One hundred seven (107) members practice at six (6) multi-site (often multi-disciplinary) community practices, as follows:

- 45 MDs @ 16 sites
- 19 MDs @ 5 sites
- 14 MDs @ 5 sites
- 12 MDs @ 3 sites
- 10 MDs @ 2 sites
- 7 MDs @ 2 sites

Finally, 40 members practice in 22 single-site practices, as follows:

- 15 practices w/ 1 MD
- 1 practice w/ 2 MDs
- 2 practices w/ 3 MDs
- 3 practices w/ 4 MDs
- 1 practices w/ 5 MDs

ANCO is dedicated to the delivery of the highest quality care to people living with cancer by providing a forum for the exchange of ideas, data, and knowledge and by representing the interests of physicians and people living with cancer. To these ends, ANCO disseminates information via e-mail, FAX broadcast, the ANCO FAX News, and its website; sponsors clinical education meetings for physicians and nurses and professional education meetings for physicians, and nurse and practice managers; and, advocates on behalf of physicians and people living with cancer before State and Federal government agencies, regional and national hematology/oncology and medical societies, and insurance and pharmaceutical companies.

ANCO’s goal is to preserve and defend the autonomy of oncologists and hematologists to provide the highest quality care to people living with cancer. Our clearly defined objectives are to:

- Disseminate the latest and best information impacting the practice of hematology/oncology to members.
- Provide clinical education to physicians and nurses and professional education to physicians, nurses, and practice managers.
- Serve as an advocate and liaison for its members before regional and national organizations (i.e., government, private, and corporate).

ANCO is a state/regional affiliate of the American Society of Clinical Oncology (ASCO) and a member of the Association of Community Cancer Centers (ACCC). ANCO and MOASC share the oncology specialty delegation at the California Medical Association (CMA).
• Play an active role in the reimbursement environment on behalf of physicians, nurses, managers, and people living with cancer.

Oncotype DX
Genomic Health has established the
Genomic Access Program (GAP) to
provide financial and administrative
support to patients ordering the
Oncotype DX assay. The GAP program
was established to assist qualified
patients gain access to Oncotype DX
and to help patients and physicians
with the entire reimbursement process.
GAP is made up of dedicated
professionals who advocate on a
patient’s behalf by working with
physicians’ offices and insurance
companies to facilitate access to
Oncotype DX. In addition, GAP
provides various comprehensive
financial assistance programs for
patients with financial hardship,
uninsured patients, and underinsured
patients based on eligibility. While
GAP directly supports the patient, it
also works with physicians’ offices to
provide individualized assistance and
support with every claim. GAP services
are available at physician or patient
...
request, do not require pre-registration, and can be accessed at any time before, during, or after you have ordered the Oncotype DX assay. Genomic Health is prepared to bill insurance plans directly on behalf of insured patients whose physician orders an Oncotype DX assay. Through GAP, the patient’s physician can request a benefits investigation to confirm whether the patient’s insurance plan is active and obtain available benefits information specific for Oncotype DX. Some insurers require a prior authorization before processing the patient’s specimen; the GAP team can also help facilitate this process. In the event that a payer denies an Oncotype DX claim, GAP representatives will identify the reasons and advocate on the patient’s behalf. For additional information, visit www.OncotypeDX.com.

Each Director shall be and continuously remain a licensed physician and surgeon as defined in the California Business and Professions Code. (Amended 2002)

Section 3. Election and Term of Office. Each Director so elected shall hold office until the expiration of the term of the replaced Director and until a successor has been elected and qualified. (Amended 2002)

A vacancy or vacancies in the Board shall be deemed to exist in (i) the event of the death, resignation or removal of any Director, (ii) if the Board by resolution declares vacant the office of a Director who has been declared of unsound mind by an order of court or who has been convicted of a felony, (iii) if the authorized number of Directors is increased, or (iv) if the members fail, at any meeting of the members at which any Director or Directors are elected, to elect the number of Directors to be elected at that meeting.
