## ***Association of Northern California Oncologists (ANCO) to fund an ASCO Young Investigator Award (YIA)***

The *Conquer Cancer Foundation (CCF) of the American Society of Clinical Oncology* is now accepting applications for the 2018 *Young Investigator Award (YIA)*. The *Association of Northern California Oncologists (ANCO)* is funding one 2018 YIA for a qualified northern California applicant, and urges all eligible northern California physicians to apply.

The YIA is a one-year, \$50,000 grant that provides research funding to promising physicians to support their transition from final years of training to faculty appointment and to encourage and promote quality research in clinical oncology. Applications in all areas of cancer research are accepted from U.S. and international applicants.

For 2018, CCF has dedicated funding for the following areas: breast cancer, California researchers, global oncology, kidney cancer, lung cancer, pediatric cancer, sarcoma, and supportive care. Other areas of interest include cholangiocarcinoma, chronic lymphocytic leukemia, gynecological cancers, and melanoma. YIA applications opened on July 1 and are due by 11:59 pm ET on September 21, 2017. Eligibility criteria, award details, and the request for proposals are available on the CCF website ([www.conquer.org/YIA](http://www.conquer.org/YIA)).

For questions about the YIA or assistance with your application, please email [grants@conquer.org](mailto:grants@conquer.org).
